

Color of Nature, Breath of Nature

Kindigo, Natural Indigo Dyeing Products

Kindigo, meaning "Korean indigo," is an eco-friendly enterprise, growing indigo plants in our farm, fermenting blue color in-house by a natural dye process and making products dyed with natural indigo.

Effects of Indigo Plant

A variety of blue colors can be extracted from Indigo plant. The herb is not only beautiful in color but also excellent in sterilization, antibacterial and insecticidal effect. Indigo dyed products are useful for heat-related symptoms (e.g. burn, etc.) as indigo dye has an effect of lowering temperature and UV protection.

Certified & Prize-Winning Products

- Won 2013 WIPO (World Intellectual Property Organization) Secretary-General's Prize for Excellent Trademark Right
- Acquired Venture Company Certificate
- Certified ISO 9001 and ISO 14001
- Selected Among 'Hit 500 of Small & medium Business Corp. (SBC)'

Natural Process of Indigo Dye

We grow indigo plants in our own farm, naturally extract/ferment blue pigments and dye natural textiles -- all by hand.

Bedding

Bed clothes, blankets, pillows

- We use natural materials (hem, cotton and viscose rayon fabrics) dyed with naturally fermented indigo.
- Due to excellent cooling, antibacterial, sterilizing and deodorizing effects of indigo dye, Kindigo's bedding helps cool and comfortable sleep.

Clothes

Innerwear

- Skin-friendly innerwear made with high-tech functional material, Micro Modal, extracted from beech tree.
- Prevent rise in body temperature and reduce the fever around the sensitive body parts.

For women:

- Non-wired Bras and Sports Bras:
No stifling and uncomfortable feeling of wearing bras.
Help to maintain blood circulation around the breasts.

For men:

- Boxer Briefs:
Prevent sweat accumulation and itchiness

Sleeping Shade

- Refreshes eyes
- Prevents swelling and having bloodshot eyes
- Helps to have deeper and sounder sleep
- Inserted Cassia seeds (芫) lowers the temperature around eyes and gives a finger-pressure therapy effect when wearing the sleeping shade.

(Patent Registration No.: 10-1233697)

For Baby

- Handmade Bedding & Toys good for baby's sensitive skin:
- Skin-friendly products after dyeing with natural pigments from grasses, flowers, fruits, etc.

Others

Scarves, handkerchiefs, atopy-UV-blocking arm sleeves, kitchen towels, masks, slippers, tea cup covers, accessories, etc.
